

Conversifi

Security permissions to be granted by IT department

Students must be able to:

.....

1. Access the following websites

- www.conversifi.com
- app.conversifi.com

2. Recieve emails from the following addresses:

- info@conversifi.com
- support@conversifi.com
- no-reply@conversifi.com

3. Recieve emails from the following senders:

- Gmail.com
- Sendgrid.net

4. Interact with these 3rd-party technologies:

- **Paypal:** enables students to purchase tokens which can be used on our platform
- **Zoom:** records audio and video of each call that takes place on Conversifi so that students can download recordings of their calls

.....

In keeping with our schedule for this semester, we must begin corresponding with students starting from the start of the term.

.....

At Conversifi, we are committed to upholding the highest standards of security for all of our users. We use https connections, secure our database, and do not share any personal student information. We do not store any passwords or any credit card information. Our video calls are hosted by Zoom, which are CA and GDPR compliant.
